

Industrial Belting Knives

For Cutting Rubber and Similar Materials

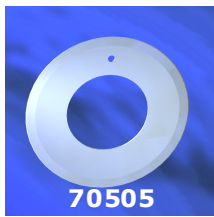

Hyde has been supplying slitter blades and hand knives to the belt fabrication and rubber goods manufacturing industries for over a century. Over that time, the Hyde name has become synonymous with the best blades and hand knives money can buy - American craftsmen know they can depend on Hyde products. We make the "tools of the trade" that professionals in many fields use to get work done quickly and precisely.

When you need the right hand knife to do the job quickly and precisely, Hyde Industrial Blade Solutions has you covered!

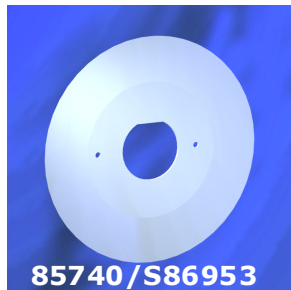

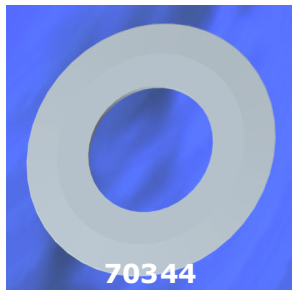

Made in USA

Slitter Blades - Hyde slitter blades for industrial belting and rubber fabricators are made of Chrome Vanadium or M2 steel, in a variety of diameters to fit most slitting equipment. Don't see the blade you use on the list? Not a problem - other specifications and steel alloys are available on a "make to order" basis.
