D&S Granulator Knives Offer Industry Leading Performance

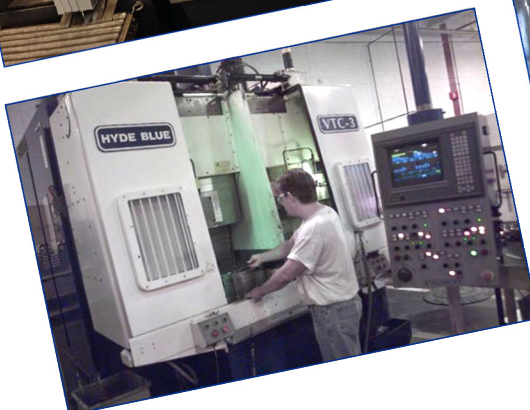

What makes D&S granulator knives perform beyond expectations? Start with the best grades of steel available. Cut the blank shape. Choose the correct knife profile. Heat treat the blank to maximize the life of the cutting edge. Machine it to exacting tolerances. Then guarantee performance. Every D&S granulator knife is manufactured with these values.

For just about any plastic recycling application, D&S has you covered. Send us your granulator knife requirements or, if you like, we can help you design your own specific solution. With well over a century of machine knife experience, D&S can assist you in reaching your desired results. Most quote requests are answered in 48 hours or less.

We stock many steel alloys in a variety of sizes to ensure we have material to meet your specific need in the most expedient manner. We'll quickly turn your granulating challenge into a D&S solution!

Inventoried Material Types Include:

Moly-Chrome
D2
M2
CPM10V
PGK
and others

GRANULATING
KNIVES
A HYDE GROUP COMPANY

Granulator Knives made by D&S provide longer blade life than you'll get with the competition, which means less downtime and higher productivity!

From Cumberland to Nelmor, Rapid to Conair, granulator manufacturers know that at the heart of the process is the knife. And when it comes to granulating knives, D&S is a cut above the rest.

At D&S we use only premium grade, high chrome alloy tool steel for superior overall performance. D&S Moly-Chrome knives are heat treated to provide greater toughness and longer service life. And we back this all up with ISO 9001 certification - our promise of quality and trouble-free performance!

Key features and benefits of D&S granulator knives include:

- All our granulator knives are manufactured to meet or exceed OEM specifications, including our proprietary heat-treatment process
- Our sales engineers are available to help analyze your operation, offering recommendations on how to get the most out of your granulator knives.
- And all the basics you've come to expect from the best - guaranteed quality, unquestioned reliability, longer knife life, outstanding service, a complete OEM inventory and rapid turnaround.

A selection of some of the more common machinery brands for which we manufacture knives include:

- | | |
|--------------|-------------------|
| • AEC | • Nelmor |
| • Conair | • Pallmann |
| • Cumberland | • Process Control |
| • Getecha | • Rapid |
| • Granutech | • Sterling |
| • Herbold | • Zerma |

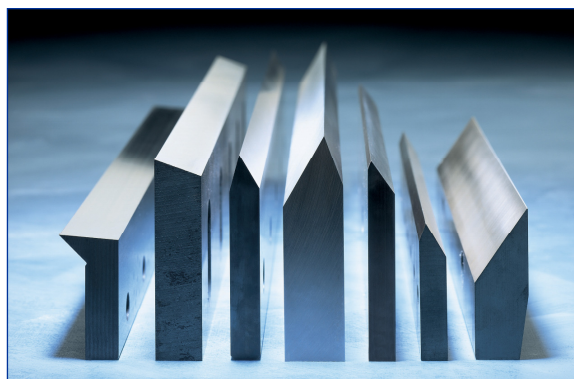

... and many others ...

Custom made blades available upon request—send us your drawing or print and let us quote your requirements. Remember, for all types of plastic recycling, a D&S blade can cut it!

Hyde Tools, Inc. is ISO9001 Registered

"We're always looking for higher production rates. We need knives that won't shut us down ... and D&S knives are up to the job!"
