

## NEWS FROM THE CUTTING EDGE

*Helpful Tips From The Professionals At Hyde IBS*

How time flies! It's already been one year since our colleagues at D&S and PDK joined the Hyde fold. Our customers have seen the benefits as we share our mutual experiences and knowledge of cutting, slicing and dicing across a wide variety of materials ranging from poultry to plastics and turn them into practical day-to-day solutions.

If you have a unique cutting application that's keeping you up at night, e-mail us at [info@hydeblades.com](mailto:info@hydeblades.com) and we can help create new opportunities for your business today and in the future. Enjoy your look through this issue of The Cutting Edge!

### LEADING EDGE NEWS:

#### D&S AND PDK DIVISIONS COMPLETE MOVE TO SOUTHBRIDGE FACILITY

A little over one year ago, D&S Manufacturing and PDK Design & Grinding joined the HYDE IBS family of companies opening new possibilities for our entire customer base in the plastics, tire and recycling industries.

Now, in a move designed to continue to integrate operations, expand the sharing of resources and knowledge of a wide array of industries, both firms will be relocating their sales and manufacturing and service operations to our recently certified ISO 9001:2015 facility (see next article).

The two divisions will now have greater access to Hyde's engineering group and will be fully integrated into our Enterprise Resource Planning (ERP) System for the tracking of projects and materials.

D&S specializes in the manufacturing of high-chrome alloy tool steel granulator and shredder and recycling knives used to break down plastic material. PDK is a leader in the manufacturing of tungsten carbide rotor knives and bed knives for pelletizing plastic before being converted to a final product. Both firms also offer grinding services for the re-sharpening of their respective knives and blades.

For more information of D&S and PDK, visit our website at: <http://www.industrialbladesandknives.com/markets/plastics-processing/>

### TRADE SHOW SCHEDULE

Visit us at these upcoming trade shows or conventions:

#### June 20–22, 2017

United Fresh 2017 Show (Food Processing),  
Chicago, IL

#### September 17–20, 2017

A-D ISD NAM National Meeting (Industrial),  
Grapevine, TX

#### September 19–20, 2017

Process Expo (Food Processing),  
Chicago, IL

#### September 27–30, 2017

NIBA/PTDA Joint Convention (Belt/Fluid Power),  
Hollywood, FL

#### October 8–10, 2017

NetPlus Alliance National Meeting (Industrial),  
Orlando, FL

**Our Solid Steel Offer:**  
Receive a refund if  
you are not satisfied  
with our product in  
the first 60 days!

### **LEADING EDGE NEWS:**

#### **HYDE BECOMES ONE OF THE FIRST INDUSTRIAL BLADE MANUFACTURERS TO ATTAIN ISO 9001:2015 STANDARDS CERTIFICATION**

We are pleased to announce that we recently received ISO 9001:2015 standards certification by the International Organization for Standardization (ISO). This certification recognized our ability to meet or exceed the most current, world-class specifications for products, services and systems, to ensure quality, safety and efficiency.

Following an audit by the organization across all departments including manufacturing, purchasing, quality control and inspection, logistics, sales, and customer service, we became one of the first industrial blade manufacturers to achieve the new standard.

"This designation underscores Hyde's and our employees' dedication to delivering the best products and services day-in and day-out," stated Rob Scoble, President, The Hyde Group. "The certification also demonstrates our ability to consistently meet customer and regulatory requirements while striving for constant improvements throughout the company."

Based in Geneva, Switzerland, ISO is an independent, non-governmental international organization with a membership of 161 national standards bodies. It brings together experts to share knowledge and develop

voluntary, consensus-based, market relevant international standards that support innovation and provide solutions to global challenges.

## **HAPPENINGS AT HYDE:**

### **NEW DIRECTOR OF PRODUCT DEVELOPMENT ENGINEERING JOINS HYDE**

We are pleased to announce that Jeremy Dexter has been hired in a newly created position of director of product development engineering at Hyde. In this position, Jeremy will lead strategic initiatives in the development of new products, process and market opportunities for our customers and distributors. Working in tandem with our sales and marketing and operations teams, he will lead the product development engineering department in identifying potential in new and existing markets.

Most recently, Jeremy was director of engineering at Simonds International, Fitchburg, MA. He rose through several roles with increased responsibilities in research and development, process engineering and quality assurance during his sixteen-year tenure at the industrial cutting tool manufacturer.

Jeremy is a graduate of Worcester Polytechnic Institute (WPI) with a Bachelor of Science in Mechanical Engineering with a concentration in material science and earned a Master of Business Administration from Fitchburg State College. He has also received certifications in ISO 9001:2000 training and lean manufacturing processes.

Please welcome Jeremy to our (and your) team!
